

Written division with remainders Resource sheet

1. Here are the numbers of items that parents and children made to sell at their school fair.

Work out the number of packs for each item and how many were left over.

Item	Total number made	Number in one pack	Number of packs made	Number left over
Ginger biscuits	590	8		
Chocolate eggs	488	6		
Christmas cards	227	10		
Marbles	439	5		

2. In a class of 20, each child made 17 origami coasters.

The coasters were sold in packs of 8 at a price of £1.99 per pack.

All the packs sold.

How much money did they raise?
