

A. All these calculations are wrong!

Ring the mistakes and write a correct version.

Use a mental method if it is more appropriate.

<p>1. $31.9 + 2.36 =$</p> $\begin{array}{r} 31.9 \\ + 2.36 \\ \hline 4.26 \\ \hline 1 \end{array}$	<p>2. $23.16 - 19.74 =$</p> $\begin{array}{r} 23.16 \\ - 19.74 \\ \hline 17.42 \end{array}$
<p>3. $3.09 - 1.7 =$</p> $\begin{array}{r} 23.109 \\ - 1.7 \\ \hline 1.92 \end{array}$	<p>4. $432.08 + 3.73 =$</p> $\begin{array}{r} 432.08 \\ + 3.73 \\ \hline 435.71 \end{array}$
<p>5. $634 + 0.23 =$</p> $\begin{array}{r} 6.34 \\ + 0.23 \\ \hline 6.57 \end{array}$	<p>6. $14.27 - 8.7 =$</p> $\begin{array}{r} 14.27 \\ - 8.7 \\ \hline 6.57 \end{array}$
<p>7. $10 - 3.99 =$</p> $\begin{array}{r} 110.100 \\ - 3.99 \\ \hline 8.11 \end{array}$	<p>8. $18.7 - 0.46 =$</p> $\begin{array}{r} 18.7 \\ + 0.46 \\ \hline 2.33 \\ \hline 11 \end{array}$

B. Use an appropriate method to calculate these.

Write on the back of this sheet.

Your recording should explain your method.

- | | | |
|--------------------|------------------------|--------------------|
| 1. $26.9 - 4.3$ | 2. $4.86 + 152.3$ | 3. $254.8 - 7.23$ |
| 4. $1.99 + 163.5$ | 5. $6.64 + 18.5$ | 6. $171.46 - 4.29$ |
| 7. $54.65 - 34.59$ | 8. $4.13 + 6.1 + 2.87$ | |
