

1. Put $<$, $>$ or $=$ between each pair of fractions.

(a) $\frac{1}{5}$ $\frac{1}{4}$

(b) $\frac{2}{3}$ $\frac{3}{5}$

(c) $\frac{4}{5}$ $\frac{3}{6}$

(d) $\frac{3}{5}$ $\frac{7}{10}$

(e) $\frac{2}{5}$ $\frac{3}{6}$

(f) $\frac{4}{25}$ $\frac{1}{6}$

2. Use the numbers in the box. Make as many proper and improper fractions as you can.

Write the fractions in order, smallest first.

3. Show these fractions on the number line.

$$\frac{1}{10} \quad \frac{3}{10} \quad \frac{1}{4} \quad \frac{2}{5} \quad \frac{3}{4} \quad \frac{6}{10} \quad \frac{1}{5} \quad \frac{4}{5}$$

1. Put $<$, $>$ or $=$ between each pair of fractions.

(a) $\frac{1}{2}$ $\frac{1}{4}$

(b) $\frac{1}{3}$ $\frac{1}{5}$

(c) $\frac{1}{9}$ $\frac{1}{8}$

(d) $\frac{2}{5}$ $\frac{3}{5}$

(e) $\frac{7}{10}$ $\frac{6}{10}$

(f) $\frac{1}{3}$ $\frac{1}{4}$

2. Write each of these fractions in the correct circle.

$\frac{1}{10}$ $\frac{2}{3}$ $\frac{1}{3}$ $\frac{4}{5}$ $\frac{1}{5}$ $\frac{3}{4}$ $\frac{5}{6}$ $\frac{7}{12}$ $\frac{1}{100}$ $\frac{5}{8}$ $\frac{7}{10}$ $\frac{1}{4}$

Smaller than $\frac{1}{2}$

Bigger than $\frac{1}{2}$

3. Choose two fractions from each circle. Write the four fractions in order.

1. Use the numbers in the box. Make as many proper and improper fractions as you can. Write the fractions in order, smallest first.

2. Show these fractions above the number line.

$$\frac{1}{10} \quad \frac{3}{10} \quad \frac{1}{4} \quad \frac{2}{5} \quad \frac{3}{4} \quad \frac{6}{10} \quad \frac{1}{5} \quad \frac{4}{5}$$

3. Find a fraction that comes between each pair of adjacent fractions on the line. Write it in its simplest form under the line.
4. Write a fraction in the empty box so that the three fractions are in order (smallest to biggest or biggest to smallest).

(a)

$\frac{1}{5}$	—	$\frac{1}{2}$
---------------	---	---------------

(b)

$\frac{1}{2}$	—	$\frac{3}{4}$
---------------	---	---------------

(c)

$\frac{4}{5}$	—	$\frac{3}{6}$
---------------	---	---------------

(d)

—	$\frac{3}{5}$	$\frac{4}{7}$
---	---------------	---------------
